

OFFICE OF THE DIRECTOR OF CENTRAL INTELLIGENCE

DATE: 17 August 1972

REMARKS:

Attached is a package that merits your quick scanning. The cable from Polgar recounting his session with Kissinger is something of which you will want to be aware if you have not already seen it. Also appended is VNO's draft response which looks alright to me and on which I am quite prepared to coordinate as it stands. If you want any tinkering done with the language, it will make fewer waves for me to do it at this stage than for you to do it when it comes up to you typed in final form for release.
